**Code: SSMS-1S1-23**

**Credits: 5**

### Introduction

The professional skills track is set up to recognize the fact that for the students to become effective in their future safety and security professions, they depend on more than the acquired analytical skills, academic knowledge, methodologies, and tools covered during the different SSMS theory courses. The SSMS graduate is expected to implement security solutions, conduct safety risk assessments, provide comprehensive advice about security risk management, and be effective in carrying out a range of other activities in his/her professional field. The SSMS graduate thus also depends on skills to engage effectively with business leaders, managers, and professionals at all levels in organizations' hierarchies. Furthermore, he/she is expected to operate with appropriate sensitivity to organizational contexts, manage complex projects, as well as present cases or write reports tailored to the needs of prospective policymakers, executives, operators, or analysts.

During the Course, students will be guided towards basic (yet important) professional skills required for the safety and security specialists. The theoretical part of the Course offers insights into intricacies of communication, public speaking, personal branding, interpersonal conflict resolution, teamwork, leadership, consultancy skills and project management.

The more practice-oriented training revolves around delivering presentations, and general professional conduct such as punctuality and appropriate styles of communication.

Finally, students must implement the theoretical knowledge provided during the sessions while doing practical exercises and preparing the Course assignments. At the same time, the SSMS program covers a wide range of projects in which the students are also required to apply those skills studied throughout their journey. As such, this course aims to help the student hit the ground running in the professional world. This applies both to the student's time during the program for applied projects, internships amongst others and to pursuing a career after graduating from SSMS.

## Learning Goals

- 1) The student develops constructive collaboration with diverse stakeholders in various disciplines and cultural backgrounds.
- 2) The student adapts appropriate communication styles for diverse audiences, situations and objectives.
- 3) The student utilizes relevant digital tools (including AI) for generating various professional products and efficient communication of findings and innovative ideas.
- 4) The student builds the skills to lead safety/security projects and teams effectively while demonstrating self-regulation and professionalism.
- 5) The student converts activities and resources required for a specific objective into a plan.

## Literature

There is no required literature to be purchased. The lecturers will provide most of the reading materials (web links to documents and articles) on the session slides or in Brightspace. See also the list of the required readings below:

NB: At the time of publishing of this module manual, this program was in a preliminary stage and therefore may be subject to change. You are expected to refer to Brightspace and MyTimetable for such changes on a regular basis.

### Rules & Regulations

Class attendance is not mandatory but **strongly recommended** to complete the course successfully.

**Guest lectures must be attended** (also because they are linked to the assignments).

Scheduled dates and deadlines for presentations, workshops, assignments, etc. must be met without fail. **The students/working groups who are late for the exam (presentation/online submission) fail the exam and will take the re-sit.**

In the case of a noted lower contribution of an individual student, the tutor retains the right to **decrease the individual grade** due to:

- lack of participation in group activities (e.g., missing meetings, not communicating with the group and tutor, not being able to answer questions during the presentation)
- significantly low quality of contribution to the group work, decreasing overall outcomes (noticeable low quality of provided content, not improving it despite provided feedback)
- shortcomings in contributing to required work (late submissions, unprofessional conduct).

### Assignments

**Table 1** Application of theories in the PS assignments

| Assignment                                    | Topic                                  | Reading material/Theory                                                                                                                           | Application                                                                                                                                    |
|-----------------------------------------------|----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|

### #1 Mid-term (group) assignment: Communication analysis

Using the reading materials and suggested theories, analyze the verbal and non-verbal communication of a politician or recognized professional in safety and security (also from an international and humanitarian organization) during public speech, official meeting, or negotiation). You may present your findings through the group presentation using visually supportive slides.

During the course, you have been learning about types of communication and their barriers. To prepare the assignment, you are tasked to analyze a short video, outlining weak and strong aspects of a performer’s communication. Identify if there is anything in the presenter’s verbal and non-verbal communication (vocabulary, tone of voice, body language, etc.) that supports or disturbs the message. Lastly, turn the analysis into conclusions that might give additional information to the audience or negotiation parties to support effective decision-making.

#### Instruction:

- find a video of a public speech or message on some event by a country leader or other politician or highly ranked representative of an international organization; country leaders’ meeting or negotiations of conflicting countries, etc.
- together with your team identify and analyze weak and strong aspects of the performance of the presenter – type of communication, verbal and non-verbal communication (language, vocabulary, professional terminology, tone of voice, appearance, gestures, etc.), presentation skills, look carefully at the body language and surrounding accessories to add other possible observations to your analysis
- make sure that you have enough data on the video to analyze (it cannot be 1-2 gestures only or a few accessories)
- prepare a 15-minute presentation (with PowerPoint or other relevant software) to share the results of your analysis during the workshop, use screenshots, GIFs or short video episodes cut from your subject of research to demonstrate the collected data

- turn the analysis into conclusions and useful recommendations for the presenter, do not forget to include both appreciation for strong elements and critique of the weak ones.

Your presentation must have a brief introduction, a communication analysis of people in the chosen piece of video, a conclusion with recommendations and closure. Slides must be consistent and support your speech through relevant visuals. For more details, please see the assessment form in the appendices.

**Duration:** ≤15 min. + 15 min. for comments and feedback

**Useful source:**

[https://westsidetoastmasters.com/resources/book\\_of\\_body\\_language/toc.html](https://westsidetoastmasters.com/resources/book_of_body_language/toc.html)

**Example of a non-verbal communication analysis:**

<https://medium.com/@DrGJackBrown/nonverbal-communication-analysis-3739-hillary-clintons-statement-regarding-fbi-probe-body-3684d2c12426>

**Re-sit**

**Group re-sit:** If the entire working group fails the first attempt, the group must complete the same assignment using a new video featuring a different event or speaker(s).

**Individual re-sit:** If an individual student failed or missed the first attempt, they must complete the assignment individually. They must select a new video that is different from both the original submission and their group's original video choice.

**#2 Mid-term (individual) assignment: Job application**

Your professional career starts with a properly developed resume and cover letter. You will also need them for future internships and job applications. Thus, your knowledge of communication skills, organizational culture and personal branding should help you to prepare for this assignment.

**Instructions**

- find a real vacancy in the safety or security fields to which you can apply during your education
- study the job announcement and its required qualifications carefully
- try to identify the employer's organizational culture and preferred style of communication based on the organization's online presence (see the official website, social media accounts, ads, etc.) to tailor your resume and cover letter effectively

- prepare a resume to highlight your education, experience, qualifications, and professional skills (also hobbies if applicable) which can differentiate yourself positively in a job market among other candidates
- write a cover letter describing why you are a perfect match for this vacancy
- be creative and use appropriate visuals where applicable to make your resume and cover letter impressive and memorable.

**Merge in a single PDF file your resume, cover letter and job description (all in English) and submit via Brightspace.** If you obtained any diplomas/certificates from different trainings previously (which can prove your knowledge and skills), feel free to attach them to your assignment file. For more details and assessment criteria, please see the submission protocol in Appendix 1 and the assessment form in Appendix 3.

### Re-sit

For the re-sit, students must complete the assignment using a new job vacancy announcement (different from the previous submission).

### End-term (group) assignment: “Safe and sound for fun” project

The Professional Skills final assignment requires developing and executing a small project acting as a team of safety and security junior experts.

Imagine that you are hired by an organization (amusement park or zoo) to conduct research to identify the main risks of the organization related to its specifications and suggest safety measures for its staff and visitors. For this assignment, you must choose the client organization yourself. It can be an amusement park, aquapark, safari park, zoo, circus, or casino.

Thus, your audience will be the park's management and security department responsible for the safety of the organization's personnel and visitors.

To demonstrate your findings you must prepare a group presentation. Spread the performance time evenly among your group members. All students of your working group must participate in the presentation and be ready to answer the questions.

### Instructions

- Choose the topic/client (an amusement park, aquapark, safari park, zoo, etc.)

- Assign roles and tasks to the working group members
- Find relevant information on possible risks (incidents reported on media or statistics on accidents in the same or similar places) or visit the location of your study with your group and collect data from the site yourself
- Do a brief analysis of the collected data to identify the main risks in the park (Risk Breakdown Structure from the 'Project management' sessions)
- Recommend safety rules or preventive measures for employees and visitors considering the results of your research and observations (if there is information about safety regulations on the official website of the park/zoo, you should suggest something new or improvements to the existing measures)
- Suggest at least 5 communication channels that can be utilized for the communication of those safety rules to employees and visitors of the park/zoo effectively
- Reflect on the implementation of your project and teamwork by providing 3 negative points that can be improved and 3 positive points as best practice.

### **Presentation structure**

- introduction of the project working group and tasks assigned to the team members
- brief introduction of the client organization (park, zoo, etc.) to highlight its specifications
- data, examples, or statistics of accidents registered in a certain park/zoo (or at a similar place)
- the location risks analysis (Risk Breakdown Structure)
- suggestion of safety rules/preventive measures for employees and visitors
- communication channels to transmit the preventive measures to the staff and visitors
- feedback on your project teamwork

Use reading materials, suggested theories and models from the course to apply a proper communication style, profile your audience, prepare attractive presentation slides, do the project's risk analysis. Don't forget to use also the power of your voice and body language for public speaking, and provide constructive feedback on teamwork at the end.

Be creative! Use facts, interesting examples and relevant visuals to support your findings. Take care of your professional look. For more details, please see the assessment form in the appendices.

**Duration:** ≤25 min. + 15 min. for comments and feedback

### Re-sit

**Group re-sit:** If the entire working group fails the 1st attempt, the group must complete the same assignment using a different object (amusement or aquapark, circus, theatre, casino, attraction, etc.).

**Individual re-sit:** If an individual student failed or missed the first attempt, they must complete the assignment individually. They must select a new object (amusement or aquapark, circus, theatre, casino, attraction, etc.) that is different from both the original submission and their group's original video choice.

## Appendix 1. Submission protocol of the mid-term (individual) assignment: Resume & cover letter

| Submission criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

## Appendix 2. Mid-term (group) assignment assessment form

|                     |                      |
|---------------------|----------------------|
| Working group:      | Lecturer (PS tutor): |
| Presentation topic: | Final (group) grade: |

| Criteria                                                     |                          |
|--------------------------------------------------------------|--------------------------|
| I. Content / Q&A                                             |                          |
| 1. Presentation reflects all requirements of the assignment. | <input type="checkbox"/> |

|                                                                                                                                          |                          |
|------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| 2. The weak and strong aspects of verbal and non-verbal communication are discussed thoroughly.                                          | <input type="checkbox"/> |
| 3. Pertinent examples are provided to support conclusions/ideas with evidence.                                                           | <input type="checkbox"/> |
| 4. Presenters demonstrate full knowledge by answering questions with explanations and elaboration.                                       | <input type="checkbox"/> |
| <b>II. Structure and organization of a presentation</b>                                                                                  |                          |
| 5. Presentation is well-structured; provides clear purpose and subject.                                                                  | <input type="checkbox"/> |
| 6. Presentation time is spread evenly between the presenters.                                                                            | <input type="checkbox"/> |
| <b>III. Delivery</b>                                                                                                                     |                          |
| 7. Presenters hold the attention of an entire audience with the use of direct eye contact, seldom looking at notes.                      | <input type="checkbox"/> |
| 8. Presenters speak with fluctuation in volume and inflection to maintain audience interest and emphasize key points.                    | <input type="checkbox"/> |
| 9. Presenters do not use verbal fillers.                                                                                                 | <input type="checkbox"/> |
| 10. Presenters speak at an appropriate pace.                                                                                             | <input type="checkbox"/> |
| 11. Presenters are dressed professionally according to business attire principles.                                                       | <input type="checkbox"/> |
| <b>IV. Presentation Slides Layout / Design / Language</b>                                                                                |                          |
| 12. All visuals are attractive ( <i>size, quality, colour, shape, etc.</i> ) and support the content of the presentation.                | <input type="checkbox"/> |
| 13. Font formats ( <i>e.g., type, colour, style, etc.</i> ) have been carefully planned to enhance readability and highlight key points. | <input type="checkbox"/> |
| 14. Background enhances text or other graphics.                                                                                          | <input type="checkbox"/> |
| 15. Use of slide space is justified with proper allocation for text and visuals.                                                         | <input type="checkbox"/> |
| 16. Presentation has no misspellings or grammatical errors.                                                                              | <input type="checkbox"/> |
| <b>V. Reflection on the project planning &amp; teamwork</b>                                                                              |                          |
| 17. The reflection to the project implementation and teamwork identifies shortcomings and focuses on future improvements.                | <input type="checkbox"/> |
| <b>Final grade (Pass/Fail)*</b>                                                                                                          |                          |

\*The passing mark consists of fulfilling at least 9 of all (17) criteria.

### Appendix 3. Mid-term (individual) assignment assessment form

| Student (ID):                                                                                                                                                                                                                                                                                                                                    | PS tutor:                |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Criteria                                                                                                                                                                                                                                                                                                                                         | Judgment                 |
| <b>Assessment form submission protocol</b>                                                                                                                                                                                                                                                                                                       |                          |
| Does the assignment fulfil the formal requirements as listed in the submission protocol?<br><i>An unchecked box means that the submission has been rejected.</i>                                                                                                                                                                                 | <input type="checkbox"/> |
| <b>Resume</b>                                                                                                                                                                                                                                                                                                                                    |                          |
| 1. <b>Relevance and Alignment with Job Requirements:</b> The resume clearly demonstrates how the candidate's skills, experience, and qualifications align with the specific requirements of the job they are applying for. It includes tailored content that reflects the key competencies and responsibilities outlined in the job description. | <input type="checkbox"/> |
| 2. <b>Clarity and Structure:</b> The resume is well-organized, easy to read, and logically structured. It uses headings, bullet points, and concise language to effectively highlight the candidate's qualifications and achievements, ensuring that the most important information stands out.                                                  | <input type="checkbox"/> |

|                                                                                                                                                                                                                                                                                                                                                                                                                 |                          |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| 3. <b>Quantifiable Achievements and Impact:</b> The resume includes specific accomplishments that quantify the candidate's contributions, such as metrics, percentages, or numbers that demonstrate success and impact (e.g. language proficiency levels such as <i>basic, fluent</i> or <i>A1, B2</i> , etc.)                                                                                                  | <input type="checkbox"/> |
| 4. <b>Professional Presentation and Formatting:</b> The overall presentation of the resume is clean, professional, and free from errors. This includes consistent font style and size, appropriate use of white space, templates, visuals, and attention to detail with spelling, grammar, and punctuation.                                                                                                     | <input type="checkbox"/> |
| 5. <b>Relevant Skills:</b> The resume features a section that clearly lists relevant skills, including both technical and soft skills. It also incorporates industry-specific terms that apply in the field and align with the job description.                                                                                                                                                                 | <input type="checkbox"/> |
| <b>Cover letter</b>                                                                                                                                                                                                                                                                                                                                                                                             |                          |
| 6. <b>Customization and Relevance:</b> The cover letter is tailored specifically to the job and organization the candidate is applying for. It clearly addresses the job requirements and demonstrates how the candidates' experience, skills, and qualifications make them a strong fit for the position. This includes mentioning the company's name and referencing specific aspects of the job description. | <input type="checkbox"/> |
| 7. <b>Structure and Formatting:</b> The cover letter is well-organized and easy to follow, with a clear introduction, body, and conclusion. It has proper paragraphing, spacing professional font, appropriate margins, and consistent alignment.                                                                                                                                                               | <input type="checkbox"/> |
| 8. <b>Narrative:</b> The opening is engaging and concise, immediately highlighting the candidate's interest in the role and the company. The body provides specific examples of relevant experience and skills. The conclusion summarizes the candidate's suitability, and expresses enthusiasm for the position of the role, and includes a call to action.                                                    | <input type="checkbox"/> |
| 9. <b>Professional Tone and Language:</b> The cover letter maintains a professional tone throughout, using clear and concise language free from jargon, errors, and informal expressions. It demonstrates the candidate's communication skills, showcasing their ability to convey information effectively and professionally.                                                                                  | <input type="checkbox"/> |
| 10. <b>Evidence of Research and Alignment with Company Values:</b> The cover letter reflects that the candidate has researched the company and understands its mission, values, and culture. It should draw connections between the candidate's background and the company's goals, showing how they can contribute meaningfully to the organization.                                                           | <input type="checkbox"/> |
| <b>Final mark (Pass/Fail)*</b>                                                                                                                                                                                                                                                                                                                                                                                  | <input type="checkbox"/> |

\*The passing mark consists of the fulfilment of at least 7 of all (10) criteria.
